

MANAGING APPLE DEVICES IN WINDOWS ENVIRONMENTS

"May all in the realm prosper and live in harmony. Except Steve. You know what you did."

Sysadmins managing hybrid Mac and PC fleets are a hardy, multiskilled bunch. In our latest survey, we discovered the most common challenges they face — and where an MDM can help.

52%

of sysadmins are MDM whizzes (though daily challenges remain).

3

most useful MDM functionalities are OS updates, app management, and device provisioning.

55%

of sysadmins say managing OS updates is a challenge.

3

MDM features sysadmins want most are ease of use, multi-platform support, and robust functionality.

51%

of sysadmins say managing Apple device configurations and preferences is a challenge.

3

most popular MDM tools are Microsoft (Configuration Manager, Intune), Jamf, and SimpleMDM(🤪).

46%

of sysadmins say keeping Apple apps up to date is a challenge.
